

The Bethlem and Maudsley Hospital School

ITP Education

Who do we work with? We work with pupils aged 12 to 18.

Who works here? We have a small staff of enthusiastic and experienced teachers and a Higher Level Teaching Assistant.

Where do you learn? Our school room is situated in the Michael Rutter Centre at the Maudsley Hospital. We have a small well-equipped classroom.

When do you learn? School lessons form part of the Intensive Treatment Programme (ITP). The school day starts at 10.00 and finishes by 2.15 most days. If you are attending the ITP full time you will have approximately 11 hours of lessons per week.

What is on the timetable? We work with you, your school, college or workplace to develop an individual programme, this can cover all subjects. Specialist subject teachers are available in a broad range of subjects.

What resources do we have? We are set in a very pleasant environment. We regularly add to and update our range of resources which include:

- An attractive and well-resourced room.
- Extensive ICT equipment which includes laptops and iPads and a large TV screen.
- A wide range of books, text books, DVDs and other learning resources to support learning for all ages.
- Art materials.
- A range of activities to encourage and support interaction and sociability.
- Resources for learners with special educational needs.

How do we monitor your progress? You will have an Individual Education Plan which includes key targets for you to work on. These are usually a mixture of targets for learning and for helping you to feel good about yourself and getting on with other people.

We talk to other people who work with you about how you are getting on.

With your permission, we keep in very close contact with your home school or college. They provide us with work for you to do while you are with us so that you do not fall behind in your studies. You can take your Exams, Controlled Assessments and School Exams while you are with us if necessary.
