

The Bethlem and Maudsley Hospital School

Snowfields Adolescent Unit Education

Who do we work with? We work with secondary school aged pupils, including post 16.

Who works here? We have a small staff of enthusiastic and experienced teachers and a teaching assistant. We are proud of the way we personalise each young person's learning.

Where do you learn? Our school room is situated in the heart of the Maudsley Hospital and we have one well-equipped classroom.

When do you learn? School lessons form part of an integrated programme. The school day usually starts at 10.00 and is finished by 3.00.

What is on the timetable? We work with each young person, their school, college or workplace to develop individual teaching programmes. These can cover all subjects. Specialist subject teachers are available in a broad range of subjects.

What resources do we have? We are set in a very pleasant environment. We regularly add to and update our range of resources which include:

- An attractive and well-resourced room.
- Extensive information and ICT equipment which includes laptops and an interactive whiteboard.
- A range of books, text books, DVDs and other learning resources to support learning for all ages.
- Art materials.
- Handheld personal games consoles with a range of games.
- A range of activities to encourage and support interaction and sociability.
- Resources for learners with special educational needs.
- Outside organisations providing drama and music.

All young people are given the chance to speak with our careers advisor who will research career choices and prepare a report for them.

How do we monitor our learners` progress? You will have an individual education plan which includes key targets for you to work on. These are usually a mixture of targets for learning and for helping you to feel good about yourself and getting on with other people.

We talk to other people who work with you about how you are getting on.

With your permission, we keep in very close contact with your home school or college. They provide us with work for you to do while you are with us so that you do not fall behind in your studies. You can even take your exams while you are here, if necessary.

A sample timetable:

	Monday	Tuesday	Wednesday	Thursday	Friday
10.00-11.00	Science	Drama	Careers/ Reintegration Planning	Personalised Learning	PE
11.00-12.00	English	English	Maths	Music	Design Technology / Art / cooking
12.00-1.00	Lunch				
2.00-3.00	Computing	Joining the dots	Personalised learning	Science	Review the week

Each young person is assigned a **key teacher** who will work with you for the duration of your stay. Key teachers will be happy to answer any questions you may have about education at Snowfields.

You can contact us any time on **020 8777 1897** to discuss your child`s learning.
